Child's Full Name Javier Diaz

Born March 1, 1999

Summary of Examination

Javier was seen in our office today for a full visual examination. He has previously sustained an injury to the right eye as the result of being struck, but this has not impaired his vision. I found him to have 20/20 vision in the right eye and 20/15 in the left eye. Corrective lenses are not indicated. His injury has healed well.
